

Acceptability Survey
Classroom Observation Process

Demographic Information

1. Years of teaching experience:
2. Years in current building:

Observation Process Ratings:

(strongly disagree, disagree, agree, strongly agree)

1. It was valuable to complete observation of a peer teacher.
2. The observation was worth my time and effort.
3. I would recommend participation in the observation process to a colleague.
4. Having a SWPBS consultant facilitate the process was important.
5. I would choose to participate in the observation process again.
6. Participation in the observation process will positively influence my teaching practices.
7. As a result of the observation process I have a better understanding of Classroom Level PBS practices.
8. If the observation process is continued in our building I would like to receive my individual data.
