E8 - Aligning & Integrating PBIS & Restorative Practices in a Large, Urban School District

Leader Presenter: Naomi Brahim
Exemplar Presenters: Saundra Hensel, Sarah Hitchings, Chris Kolb
Jefferson County Public Schools, KY

Key Words: Alignment, Evaluation, Restorative Practices, Systems Alignment, Urban Implementation
Maximizing Your Session Participation

When Working In Your Team

Consider 4 questions:

– Where are we in our implementation?
– What do I hope to learn?
– What did I learn?
– What will I do with what I learned?
Where are you in the implementation process?
Adapted from Fixsen & Blase, 2005

**Exploration & Adoption**
- We think we know what we need so we are planning to move forward (evidence-based)

**Installation**
- Let’s make sure we’re ready to implement (capacity infrastructure)

**Initial Implementation**
- Let’s give it a try & evaluate (demonstration)

**Full Implementation**
- That worked, let’s do it for real and implement all tiers across all schools (investment)
- Let’s make it our way of doing business & sustain implementation (institutionalized use)

OBJECTIVES

- Describe the need for alignment of initiatives and cautions for implementing without alignment
- Identify critical stakeholders in alignment process
- Identify contraindicated practices and systems that interfere with alignment
- Describe one district (Jefferson County Public Schools, Louisville, KY) and school example Waggener High of aligning multiple initiatives
Jefferson County Public Schools
Board of Education

Dr. Marty Pollio, Superintendent

Dr. Carmen Coleman, Chief Academic Officer

Dr. Katy Deferrari, Assistant Superintendent

12 MTSS Academic Resource Teachers
RESTORATIVE PRACTICES
GOALS OF RESTORATIVE JUSTICE IN SCHOOLS

(GONSOULIN, SCHIFF, AND HATHEWAY 2013)

- Create a restorative and inclusive school climate rather than a punitive one
- Decrease suspensions, expulsions, and disciplinary referrals by holding youth accountable for their actions through repairing harm and making amends
- Create opportunities for learning
- Understanding about the impact of behavior on others

(Costello, Wachtel, and Wachtel 2009)
The fundamental hypothesis of restorative practices is that human beings are happier, more cooperative and productive, and more likely to make positive changes in their behavior when those in positions of authority do things with them, rather than to them or for them.

Ted and Susan Wachtel

Aim of Restorative Practices

To develop community and to manage conflict and tensions by repairing harm and restoring relationships.
SOCIAL DISCIPLINE WINDOW

CONTROL
(limit-setting, discipline)

HIGH

HIGH

Adapted by Paul McCold and Ted Wachtel from Glaser, 1969
A CONTINUUM OF RESTORATIVE PRACTICES

Intensive Intervention
- Return from suspension
- Administrative transfer or school crime diversion:
  - Victim offender meetings
  - Family/community group conferences
  - Restitution

Early Intervention
- Restorative Conferencing to develop alternatives to suspension:
  - Youth/peer court
  - Peer mediation
  - Conflict resolution training
  - Restitution

Prevention & Skill Building
- PROACTIVE circles for:
  - Morning meetings
  - Social/emotional instruction
  - Staff meetings

A CONTINUUM OF SWPBIS PRACTICES

If we are adding additional strategies to our continuum, we need to:
- Expand Systems
- Expand Data
- Look out for contraindicated practices
- Be worried about fidelity
CONTRAINDICATED STRATEGIES

- In our classrooms and schools, we routinely use exclusion and shame as “discipline”

- Effective classrooms and schools:
  - Have a range of “high probability” strategies in place in the classroom
  - Teachers can increase the dosage as needed to build student fluency social skills
  - Eliminate contraindicated strategies
HIGHLIGHTS:
- 28th largest school district in U.S.
- 172 school sites
- 6 high schools on US News and World Report's list of “Best U.S. High Schools”
- 41 National Merit semifinalists in 2018
- 415 National Board Certified Teachers
- According to a 2018 survey, 91% of parents report that they are satisfied with their child’s school
JEFFERSON COUNTY PUBLIC SCHOOLS

- **DIVERSE COMMUNITY WITH DIVERSE CHALLENGES**
  - 6% of JCPS students receive ELL services
  - 120 different languages spoken
  - Approximately 12% of JCPS students receive Special Education services
  - 6% of JCPS students are homeless
  - 62% of students receive free/reduced lunch

- **BUS RIDERSHIP**
  - 65,000 students (nearly 75%) ride the bus every day

- **MEALS**
  - JCPS provides 109,000 meals, including breakfast and lunch, every day

99,910 students (2017-18) (~81% of market share)
- 1/7 of all students in KY
- 47% White
- 37% African American
- 16% Other
ALIGNMENT
UPDATES TO THE DISTRICT LEADERSHIP

- New Superintendent along with multiple rounds of re-organization
- Renamed/branded the department
  - Now under umbrella of MTSS with 2 areas of focus: MTSS Academic, MTSS Behavior
- Full support of the superintendent - opened the community event held in August 2017, and Spalding RP Education Summit in March 2018
- Board member support with just under $3,000,000 invested solely in Restorative Practices
Student Support and Intervention Handbook

UPDATED STUDENT HANDBOOK
Office of Climate and Culture: Supporting Our Students and Building Community

Focus Area 1: Improving School Culture

School culture is the "story" of the school—the beliefs, norms, attitudes, and behaviors that play a key role in how things are done. Research says that school culture is a driving force behind student achievement. School culture can be described on a continuum from positive to toxic. The interconnectedness of adults—and the relationships that are fostered from these dynamics—contribute to a positive or toxic school culture.

JCPS staff training and learning opportunities around Social-Emotional Learning and Trauma-Informed Care assist in establishing a healthy and positive school culture. We are committed to providing a safe, stable, and understanding environment that builds on the strengths of students and families who have been impacted by trauma.

Increasingly, students and families are provided information about treatment resources across various child-serving systems. The Student Support and Behavior Intervention Handbook moves away from using solely punitive practices and toward promoting restorative approaches that build healthy communities, increase social capital, decrease antisocial behavior, repair harm, and restore relationships. The handbook moves from the singular focus on student safety to an integrated focus on creating a positive school culture that fosters student success.

Focus Area 2: Increasing Engagement

Increasing student engagement means personalizing learning (Deeper Learning, Vision 2020 strategy 1.1.2). To personalize learning, teachers use multiple research-based practices that increase engagement. These strategies include frequent opportunities to respond, modeling advanced and authentic practice, consistent routines, teacher-facilitated instruction, and positive feedback. Teachers also use culturally responsive teaching and differentiated instruction to increase student engagement. Teachers in the Professional Learning Communities (PLC) use data analysis, which adds in designing their instruction. Research shows that students who are more engaged in their learning are more likely to demonstrate positive behaviors. Knowing that behavior and academics go hand in hand, JCPS provides teachers with opportunities throughout the year to improve their understanding of these practices.

Focus Area 3: Fostering Relationships

Research shows that positive relationships help students learn. Students are more likely to succeed when they feel connected to others in their school and classroom community and are less likely to behave in ways that disrupt the school environment.

As a result of JCPS's commitment to building and sustaining relationships, there is renewed focus on celebrating and recognizing positive student behaviors through cultural competence, age-appropriately appropriate supports, and communication.

Instructional and Behavioral Supports

A Multi-Tiered System of Support (MTSS) is an integrated, comprehensive framework that focuses on core instruction, differentiated learning, student centered learning, and instruction tailored to the needs of students. MTSS is a system of practices that works from the top to the bottom and is aligned with the needs of all students. In his meta-analysis, John Hatte (2009) assigns effect sizes and identifies those high-yield pedagogical practices that support student engagement and lead to each student's success. Involving students learn more efficiently and are more successful at remembering what they learned. In addition, students who are engaged in learning are more likely to become passionate about learning in general. The more time students spend during instruction, the more they learn.

Restorative Practices (RP) and Positive Behavior Interventions and Supports (PBIS) are two well-accepted frameworks being implemented with our students and staff to develop positive and proactive ways to improve culture, increase engagement, and foster relationships. JCPS is in the process of expanding training and implementation of RP and PBIS to assist staff members with addressing challenging behaviors, restoring potentially damaged relationships, and assisting students in finding replacement behaviors while also taking accountability for their actions.

High-Yield Pedagogy

Effective teaching is the most powerful tool for engaging and motivating students to reach their potential. The use of high-yield pedagogy creates an opportunity for all students to receive an education that gives them what they need to thrive in differentiated supports focused on removing social factors as a predictor of success. Collaboration through relationship building, co-teaching, and partnerships among staff, students, families, and community are fundamental to the success of all students.

The enhancement of teacher efficacy will have a positive impact on student learning and motivation through the use of effective, high-yield instructional practices that encourage equitable educational opportunities for all students. When teachers are trained in the use of research-based pedagogical strategies and practices, it can result in increased engagement, more effective tier-one instruction, and ultimately—increased student achievement.

Positive Behavior Interventions and Supports

PBIS is a way to promote good behavior. In the past, school discipline has often focused on reacting to misbehavior by imposing punishments or privileges for students of the office, suspensions, and alternative placements. Research has shown that these approaches do not make students more effective in creating a school environment in which appropriate behavior is the norm.

PBIS creates this positive environment through behavior that is used by every student and staff member.

There are four integrated elements: data for decision making, children who understand and establish appropriate behavior and support students who need interventions, and systems that hold staff accountable for implementing the practices. Instead of a reactive and punitive response to behavior, PBIS stresses a proactive and positive one, which can help boost student achievement and play a role in overall school improvement.

Restorative Practices

The aim of RP is to develop the school community and manage conflict and tensions by repairing harm and restoring relationships. There are several components that are used when implementing RP: Social Discipline Window, Fair Process, Behavior Practices Coherence, use of Restorative Circles, and Psychological Affect. By integrating these components, schools are able to operate as a restorative school, which builds and restores positive relationships.

The underlying premise of RP is that people will make positive changes when those in positions of authority do things with them rather than to them or for them. According to the Social Discipline Window, a restorative approach requires a balance of high levels of control/limit setting with high levels of support, encouragement, and nurturing.
DISTRICT LEADERSHIP TEAM

COMPOSED OF:

- Asst. Superintendent
- Executive Administrator
- MTSS Behavior Department (Coordinator + 10 Resource Teachers)
- Principals (1 Elementary, 1 Middle, 1 High)
- State PBIS Director
- Special Education
- Student Relations

YEAR 1-2 TRAININGS:

- Introduction to Restorative Practice (and TOT)
- Introduction to Circles (and TOT)
- Facilitating Restorative Conferences (and TOT)
- Restorative Responses to Adversity and Trauma
- Basic School Climate (and TOT)
SELECTION PROCESS

COHORT 1
- Initial application process – March 2017
- Selected 18 schools for implementation - April 2017
  - 9 Elementary Schools
  - 9 Middle/High Schools
    (includes alternative and state agency schools)

COHORT 2
- Revised application process – March 2018
- Selected 12 schools for implementation - May 2018
  - Includes youth detention facility, State Agency School, ESL Newcomer Academy
TRAINING PLAN

- Whole school trainings include all staff members
- Held on dates without student attendance
- Staff paid their daily rate/PD credit
- Total cost for training, consultation, and supports from national partner and to pay daily rate = approx. $3,000,000
The expansion of "PBIS" lens to a full behavioral frame and what that means: alignment of the classroom, RP, and SWPBIS

COACHING PLAN

District Resource Teachers (Coaches) have gone through trainings as RP coaches and are receiving on-site supports from IIRP: epitomize the behavior framework in place.

**Extensive training from IIRP**
- District team went through a series of trainings before school teams
- Trainer of Trainers for Intro to RP and Using Circles Effectively

**Partnerships**
- University - Partner with Dr. Terry Scott (University of Louisville CIBRS) to provide training for district resource teachers
- National – IIRP with Director of Continuing Education and Midwest PBIS Network

**Coaching, Consultation, and Support for Schools**
- Monthly On-Site Consultation for trained schools with national consultant
- Pre-call with national consultant, principal (designee), and district support
- Coaching plan customized for each school with a different focus each month
- District support for schools – weekly onsite coaching and support from district team
Large Scale Community Event – August 2017

- Invited prominent community leaders – Court System and DJJ, Faith Based Organizations, Teachers Union, Helping Professions, PTA
- Three of seven board members attended
- Reviewed the Theory of Aligned Contribution
- Taught limited components of RP (Social Discipline Window and Fair Process)
- Community building elements – model proactive and reactive circles
- Data Walk – with data analysis of district specific data

COMMUNITY EVENTS

Spalding University RP Education Summit

- Invited all JCPS schools for 1 day summit
- 3 schools showcased their implementation
- 2-day School Resource Officer training in RP

Smaller Scale School-Based Community Events

- One event per trained school
- Invite parents, students, and community leaders for each school
- Teach limited components of RP (Social Discipline Window)
- Community building elements – model proactive and reactive circles
EVALUATION PLAN

Formative and summative data collection includes a Classroom Observation Tool and Circles Observation Tool.

Monthly implementation meetings between district support team and RP evaluator; additional meetings between national consultants, school and district staff.

Major Outcome Variables
- Climate
- Student Behavior
- Staff RP Skills and Engagement
- Academics

Quarterly Reports to schools and district staff that include data on trainings, coaching and support.

WAGGENER HIGH SCHOOL

PILLARS OF SUCCESS

BE SAFE.
We will work hard to maintain a safe school community.
- Be physically, verbally, and emotionally safe.
- Stand up for others and do what is right.

BE RESPECTFUL.
We will be respectful of all members of our school community.
- Make school-appropriate choices.
- Remain mission-oriented.

BE RESPONSIBLE.
We will be responsible citizens of our school community.
- Give our best effort, bell-to-bell.
- Own mistakes and help find solutions.

BE PREPARED.
We will come to class ready to learn.
- Bring necessary materials.
- Focus on learning.

**2017-2018**
RE-INTEGRATION MODEL

- Re-integration circle facilitated by counselors for every student returning from a long-term suspension or placement at an alternative school
- Eventually plan to scale to all suspensions and chronic absences
- Collaboration with Student Relations at district
- Designed to reinforce that the student is part of the Waggener community and foster a sense of belonging
SAFE SCHOOL AMBASSADORS

- Trained 37 students & 10 adults
- Deployed students into various CAT Time groups
- Facilitate circles, help teach RP lessons
- Follow-up through family group meetings
LESSONS LEARNED - SCHOOL

- Change is HARD!
- To get different results everything has to be done differently (systems, resource allocation, personnel)
- Trust the process!

Frame the data around the ultimate goal – increased student achievement

- Communication is vital!
- Celebrate early & often, big & small
MOVING FORWARD - SCHOOL

- Get the work to the student level
  - CAT time lessons
  - Safe School Ambassador Program
- Continual training
- Intentional data tracking
  - Discipline data
    - Pull out disruptive vs. non-attendance
    - Address non-attendance with RP
    - Repeat offenders
  - Classroom observational data
    - Student voice
    - Engagement
    - Teacher responsiveness
- Culture & Climate (TELL & CSS survey data)
- Academic data
DISTRICT LESSONS LEARNED

OBSTACLES

- Administrator and Teacher Support
- District Support Personnel (Adequate FTE)
- Funding = Daily Rate X Two Days X Total Staff X 18 Selected Schools
- Scheduling Whole School Training Sessions
- Integration of RP, PBIS, and Classroom Management

OPPORTUNITIES

- Committed Board Members
- District Reorganization
- Application Process versus Voluntold Schools
- Coaching/Consultation Planning
- Implementation Planning
- Culture and Climate Integration (SEL/Trauma Informed Care)

Implementation of a Comprehensive Behavior Support Systems Model
in Jefferson County Public Schools

Dr. Naomi Brahimi & Saundra Hensel, Jefferson County Public Schools, and
Dr. Jessica Swain-BRADWAY, Northwest PBIS Network

Brief created in collaboration between Dr. Naomi Brahimi and Saundra Hensel of JCPS, and Dr. Jessica Swain-BRADWAY of Northwest PBIS Network

Implementation of a Comprehensive Behavior Support Systems Model
in Jefferson County Public Schools

Dr. Naomi Brahimi & Saundra Hensel, Jefferson County Public Schools, and
Dr. Jessica Swain-BRADWAY, Northwest PBIS Network

Background
Jefferson County Public Schools (JCPS) is a large, urban school district in Louisville, KY, serving over 101,000 students at 175 schools. The student population is very diverse, with 55% students of color, 5.3% receiving ESL services, 66.3% receiving free/reduced lunch, and 6.1% homeless. The district began implementation of a comprehensive Behavior Support Systems Model in 2016 to explicitly address increasing rates of in-school and out-of-school suspensions, as well as ethnic disproportionality in behavior referrals.

The JCPS Behavior Support Systems Model was developed by the district leadership team, with support from national and regional experts. This model is an integration of Positive Behavior Interventions and Supports (PBIS), including evidence-based positive behavior classroom strategies, and Restorative Practices (RP). The goal was to use PBIS as a framework to implement a full range of evidence-based, and promising practices in behavior supports, to meet the specific behavioral, and relationship needs for students, staff, families, and leadership in Jefferson County.

The range of evidence-based practices included in the Behavior Support Systems Model fall into three categories, reflected in the JCPS Student Support and Behavior Intervention Handbook: Environment, Instruction, and Relationships. The following sections describe the installation, and adaptation of the components of the Behavior Support Systems Model, as the district built capacity and scaled the model from 2013-2018.

Behavior Support Systems Model – Positive Behavioral Interventions and Supports

The district began systematic implementation of PBIS in 2013 with a long term-goal, and strategic plan for district-wide capacity. During the 2013-14 school year, the district trained 50 school teams to implement Tier 1 positive behavior support strategies. Each year following the initial roll out, the JCPS team trained an additional 10-20 additional schools using a cohort training model. By 2018, the JCPS Behavior Team had trained 68% (107 of out 156) of the schools in PBIS. School sent teams of at least one administrator and representative content area and/or grade level teachers, to attend a series of trainings on a) the use of data analysis for decision-making, b) implementing practices to support student success, and c) installing and strengthening systems to support adult behavior.

The district coordinator created a working plan included dense opportunities for engaging, supporting, and coaching school staff throughout the year. This plan has helped the district with maintaining implementation momentum in the face of predictable obstacles, such as staff turnover, changes in leadership, and shifts in student population demographics. Following the initial trainings, the district established a system of ongoing professional development with a prioritized calendar of monthly training for designated school staff to enhance the PBIS implementation. In addition, the district leadership team allocated 1.0 FTE to the position of Resources Teacher, with the dedicated role of coaching PBIS. These positions were funded through a combination of district general funds and the federally awarded School Climate Transformation Grant.
